BARRANCAS TROOPS FOR MARDI GRAS

Department Orders Soldiers to Take Part in The King's Parade.

SENATOR BRYAN WAS REQUESTED TO CALL ON DEPARTMENT AND ENDEAVOR TO HAVE TROOPS PARTICIPATE IN PARADE—TELEGRAM FROM HIM GIVING GOOD NEWS RECEIVED LAST NIGHT.

The troops stationed at Fort Barrancas will participate in the parade on the arrival of the King next Monday at noon. This welcome news was received last night, when telegrams from Senator Wm. J. Bryan were received stating that the department had directed the commanding officer at Fort Barrancas to order the soldiers to take part in the Mardi Gras parade.

The receipt of the telegram last night was in reply to one sent Senator Bryan requesting that he do everything possible to have the troops at Fort Barrancas ordered to take part in the parade next Monday.

Recently a committee from the Carnival Association called upon the commanding officer and requested that he allow the troops at Fort Barrancas to come to the city next Monday, as usual, but this request could not be granted by the commanding officer, for the reason that eight months ago an order was issued prohibiting the troops from participating in such parades.

The committee immediately wired Senator Bryan with the result that several hundred artillerymen will be seen in the parade next Monday.

Couldn't Wait.
"I'll sell you \$10,000 worth of this stock for 50 cents," urges the promoter. "It's the chance of a lifetime. Within a month it will be selling at a dollar a share."

"Then why don't you hold on to it?" asks the canny man.

"I would, but I need a hair cut and a shave. How will I look if I wait a month?"—Life.

It is said that washing the hair in rainwater and soft soap and rinsing in cold ordinary water makes the hair soft and silky.

NEXT SUNDAY'S GREAT PAPER

It Will Constitute a Greeting to Pensacola's Hundreds of Mardi Gras Guests.

Next Sunday's paper will be read by every visitor who has come to see Pensacola's Mardi Gras festival and it will constitute a greeting to each guest within our midst.

What greeting have the merchants of Pensacola for the throngs that will be here, and how do they intend to express it? There is but one proper way to do it and that is through the columns of The Journal. Hundreds of people take advantage of the Mardi Gras rates to buy goods as well as to witness the carnival, and the merchant who meets them half way is the one who is going to get the trade.

People nowadays look to the newspapers to determine who the enterprising merchant are and if a merchant's advertisement is not in the paper, that merchant is more than apt to get the go-by.

The Journal is going to do its part to show our guests that we have an enterprising metropolitan community, but it can't do this alone. It must have the help of every merchant in the city who takes pride in his business and in Pensacola. A great many merchants have already spoken for extra space and much of this copy is already in. Those who have not yet sent their advertising copy in are urged to do so at once. You want to do the right thing next Sunday. You can do it by going into The Journal and by getting your copy in at once.

Neglected Colds Threaten Life.

(From the Chicago Tribune.)
"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be obtained is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of diphtheria. A cold never results in pneumonia when it is given. For sale by all druggists.

AT THE THEATRES

TONIGHT—Black Patti Troubadours.
The popular Black Patti Troubadours will be the attraction at Opera House tonight. The troupe comes with a new budget of mirth, melody and action, and a Company bigger and smarter than ever. In addition to Black Patti (Sissieretta Jones) and "Fut" Whitney, the "droll" comedian, best of all colored comedians, and forty other talented singers, dancers, comedians and specialty performers in the company, who will be seen in a new "Black Patti" show, "Prince Bongaboo," "The Bohemian Girl" and "Grand Vaudeville" are the features of this season's show, in which are incorporated and interpolated sweet dark key melodies, swell singing and dancing specialties, operatic ensembles, minstrel hits, big variety acts and screamingly funny comedy situations, all embellished with appropriate costumes, scenery and illuminating effects.

FRIDAY NIGHT—McIntyre and Heath
McIntyre and Heath who will appear at the opera house Friday night in "The Ham Tree" have been working together on the stage as partners for 31 years and they intend to hold the record of being longer associated than any other in the stage world.

The demand for their public appearance in vaudeville at the close of the "Ham Tree" tour resulted in an offer of \$100,000.00 for forty weeks which was refused, as they will appear together in a new play next season provided by Messrs. Klaw and Erlanger.

"The Ham Tree" is one of the best vehicles these two actors have ever appeared in. Vaudeville patrons will recall, of course, their old act "The Georgia Minstrels" but the "Ham Tree" will probably live longer in the memory of the theatregoers. For this reason the announcement that next year the "Ham Tree" will be discarded is received with no little regret. That they will be provided with a play equally as entertaining as that to be presented tomorrow night, is not to be doubted however.

SATURDAY MATINEE AND NIGHT
—"Coburn's Minstrels."

For the past ten years Manager Coburn has presented one of the most progressive minstrel attractions under the title of the "Great Barlow Minstrels." His standard "Your money's worth or your money back," as an absolute bond of good faith, an advance courier of all that is new, novel, and entertaining in minstrelsy. Acting upon the advice of friends and managers

in the South he decided this season to drop the word "Barlow" entirely and next Saturday, Feb. 28, at the Opera House will give matinee and night performances with an entirely new company, new features, novelties and scenic effects under the title of "J. A. Coburn's Greater Minstrels" with the same guarantee of integrity as in the past.

For years there has not been one of the original "Barlows" in minstrelsy. Milt G. and Jim Barlow have been dead some years, while "Billy" has engaged in other lines of theatrical profession.

One of two inferior attractions operating under a somewhat similar title to the "Great Barlow," to the detriment of Manager Coburn's business interests, caused him to make the change, which is one that promises much to the theatregoer.

STAR THEATRE—Vaudeville.

The offering this week at this popular little play house is one of the best and most refined performances ever presented in this city. The acts are made up of the Musical Murphys, six in number. The show opens with a song by Baby Murphy, who it is said, is one of the greatest child singers on the American stage today. The solo on the cornet and trombone by the two boys is excellent, and Miss Vera Murphy's solo on the violin shows that she has wonderful musical talent.

Prof. Jones, the popular vocalist, is still a feature of the "Star." Those who have not visited the "Star" this week have missed a treat which is worth the price of admission ten fold. Manager Vucovich announces a complete change in the music beginning today.

MARKED FOR DEATH.

"Three years ago I was marked for death. A graveyard cough was tearing my lungs to pieces. Doctors failed to help me, and hope had fled, when my husband got Dr. King's New Discovery," says Mrs. A. C. This medicine holds the world's healing record for coughs and colds and lung and throat diseases. It prevents pneumonia. Sold under guarantee at all druggists, 50c and \$1.00. Trial bottle free.

Nervous Break-Down

Nerve energy is the force that controls the organs of respiration, circulation, digestion and elimination. When you feel weak, nervous, irritable, sick, it is often because you lack nerve energy, and the process of rebuilding and sustaining life is interfered with. Dr. Miles' Nervine has cured thousands of such cases, and will we believe benefit if not entirely cure you. Try it.

"My nervous system gave away completely, and left me on the verge of insanity. I had tried all the physicians but got no permanent relief. I got so bad I had to give up my business. I was a clerk in a large Restorative Nervine. In a few days I was much better, and I continued to improve until I was entirely cured. I am in business again and never miss an opportunity to recommend this remedy." Myrtle Creek, Oregon.

Mr. T. W. Stanton, a prominent citizen of this place, is the inventor of what he is pleased to call a "cooking tin," which is the most complete thing for use in the kitchen that can be used in the sick room to heat water, warm bottles and vials, and make soups for the sick. In hotels and restaurants it is of service in making coffee. It can be placed on any ordinary lamp, and is in the shape of an ordinary coffee pot. Mr. Stanton has an application pending for patent. Barbers will also find it a very useful thing in having plenty of water at an even temperature. Mr. Stanton's idea came to him by experimenting with a tin can with funnel through the center to be placed on a lamp in the place of the globe to keep water and liquids warm through the night for his infant baby. Hence his invention.
